**Final Examination for Corporate Finance**  
**Professor Colón**  
**Fall 2021**

This is a **three-hour**, open book examination.

**Permitted Materials:** (1) Calculator or access to Excel on your laptop, ipad, etc.; (2) CF; (3) Slides; and (4) Any materials I distributed either on-line or in-class, or that you typed or wrote yourself. You may access your computer only to use Excel or to view these materials. Just to be clear: you may not access the internet for any other purposes, including but not limited to searching, viewing commercial outlines, texting, instagram, channeling psychic friends, DMing, etc.

**On the scantron form, write your Exam Number to ensure that the correct grading sheet is used on your exam.**

This examination has **11** pages (including the instruction page). Be sure you have them all.

This examination consists of **40** questions. The first **37** questions are multiple-choice questions and the remaining **3** are short answer questions. Each multiple-choice question is worth 3 points; question **38** is worth **6** points, question **39** is worth **8** points, and question 40 is worth **30** points. Plan your time accordingly.

You will not be penalized for guessing. You must write **neatly** your answers to the short-answer questions on the exam and not in blue books.

Since I have rounded some answers, the “true” answer may not be listed. In such cases, choose the closest answer. The questions have been carefully crafted and reviewed to eliminate ambiguity. *Therefore, make sure that you read the questions carefully!* Do not assume facts that you have not been given.

Assume that all interest is compounded annually, unless otherwise stated.

Assume that we live in a no tax, no inflation world, unless otherwise stated.

Assume that all assets are held long, unless otherwise stated. For example, “A owns stock A” or “A owns call option B,” means A is long stock A or long call B.

**YOU WILL NOT RECEIVE A GRADE UNLESS BOTH THE EXAM and SCANTRON ARE RETURNED.**
